

HAIKU: How and Why

1. HAIKU is a resource board with everything your facility will need to participate in the HAI Initiative, including *links*, *downloadable forms*, and a *discussion board*!
2. Have a question about how to use a data collection form, or where to input your data? Just ask it on our discussion board, and a member of our project coordination team will answer it! If you believe your question was already asked, check the FAQ document to find out the answer.
3. Had to miss a face-to-face training or webinar? No problem! The slide sets for all trainings and webinars can be found on HAIKU.
4. Need information about a Learning Session? The HAIKU calendar has all the information on when, where, and how to sign up for the learning sessions!
5. To confirm your account, simply go to <https://www.myhaikuclass.com/huffkl/nhsndiscussionboard/signup> and input your personal invitation code. Lost your code? Email Greg at mallisg@uindy.edu.
6. Need to add a team member? Simply email Greg at mallisg@uindy.edu with the new team member's first and last name as well as their email address.
